👤 Summary

I am a detail-oriented and passionate React Developer with over 5.5 years of experiencebuilding responsive web applications using modern JavaScript (ES6+), TypeScript,React.js, Redux, and REST APIs. I am adept at writing clean, scalable code andcollaborating effectively in agile environments. I have a proven ability to transform UI/UXdesigns into high-quality, functional code. Throughout my career, I have developed scalable and performant web applications usingReact.js, Redux, and Next.js. I have collaborated closely with UI/UX designers toimplement responsive designs using Material-UI, Mantine, and PrimeReact componentlibraries. I have successfully integrated RESTful APIs and handled complex statemanagement using Redux Toolkit.

🎓 Education

Kammavar Association College Of Arts And Science, Kamarajar University

💼 Experience

CRB INNOVATIVE SOLUTION
Web Designer
8/16, 5th St, AD Block, Anna Nagar, Chennai, 600040, Tamilnadu

May 2019 - Jun 2021

At CRB Innovative Solution, I work as a web designer where I create custom layoutsbased on customer requirements using Adobe Photoshop CS6. Once the initial layout isready, I share it with the customer for feedback. If they request any corrections, I makethe necessary changes to ensure their satisfaction. After the customer is fully satisfiedwith the design, I accurately develop the website using HTML, CSS, JavaScript, jQuery,and AJAX to bring their vision to life.

TRIPWERK
React Developer
Old No: 28, New No: 45 4th Floor, North Usman Road T.nagar,, Tamilnadu

Jun 2021 - Jun 2022

I am creating Tripwerkz, a comprehensive hotel, flight, and tourist booking platform thatserves both B2B and B2C markets. This platform application provides seamless bookingexperiences for travelers and business clients alike. For the frontend development, I amusing Next.js framework combined with Material-UI for creating a modern, responsiveuser interface. Additionally, I am integrating APIs to ensure smooth functionality and real-time data processing across the entire booking system.

Foundever
Senior Developer
Ramanujan IT SEZ, Rajiv Gandhi Salai, Tharamani, Chennai, Tamilnadu

Jun 2022 - Present

I specialize in building AI-integrated applications for chat and customer service solutions.I have developed React-based dashboards that visualize sentiment trends, monitoragent performance, and generate alerts for negative customer interactions. Additionally, Icreated an intelligent system that analyzes sentiment at key stages of customer-agentcalls—specifically at the beginning, middle, and end—to comprehensively assess overallcall quality and customer satisfaction levels. This automation system streamlines callcenter operations and enhances the overall customer service experience across variousindustries.
